

IL BOTTACCIO

YOUR SENSORIAL JOURNEY AT IL BOTTACCIO curated by SEED TO SKIN TUSCANY

Our values for uniting beauty and awareness:

Naturally pure. Scientifically proven. Honestly effective.

- High-quality natural, organic, and wild ingredients
- Sourced sustainably: from our organic farm in Tuscany and environmentally conscious micro-producers
- Clinically proven effectiveness
- Exclusively produced in our on-site laboratory
- Full traceability and transparency
- All our formulations are the result of research and development by our expert skincare team and scientists
- Formulated only with high-quality and effective raw materials
- Eco-compatible packaging

Green Molecular Science

Molecular delivery system – the advanced molecular transport system by Seed to Skin Tuscany does not just follow the trend of natural cosmetics but goes far beyond: it combines the powerful healing properties of nature with the tangible effectiveness of the most advanced science. But what does that mean for your skin? Let's start from the beginning. Our skin is made up of various layers composed of different types of cells. In order to truly activate processes of cellular repair and regeneration, it's essential to penetrate these skin layers. To achieve this, we extract the most effective natural ingredients and use the so-called advanced molecular delivery system, capable of reaching the deepest layers of the skin. This is what we call green molecular science. The result? Revitalized, elastic, fully hydrated skin illuminated from within, making you beautiful inside and out.

Our products do not contain:

- Toxins & additives
- Parabens
- Synthetic preservatives
- Artificial fragrances and colorants
- Paraffin
- Polyethylene glycol (PEG)
- Sodium laureth sulfate (SLES)
- Sodium lauryl sulfate (SLS)

IL BOTTACCIO

Raw ingredients sourced ethically.

From the beginning, friends of the Earth. At Seed to Skin, we create nutrient-rich skincare of the highest efficacy using only the purest herbs and raw ingredients that nature offers. In our product line, we incorporate herbs, honey, and sheep's milk sourced directly from our certified organic farm located at Borgo Santo Pietro, in the heart of Tuscany. The raw materials not cultivated on our estate are sourced from environmentally conscious and carefully selected micro-producers and suppliers of plant- and marine-based ingredients. Healthy soil and clean water are non-negotiable factors, ensuring the exceptional quality of Seed to Skin and forming the foundation of our brand's integrity.

Our sustainable promise

From raw ingredients to formulation, from production to packaging – we never compromise when it comes to sustainability. The ingredients in our products come directly from our organic farm in Tuscany or from ethical plant- or marine-based suppliers. Our line is entirely cruelty-free. We never use any synthetic additives or preservatives in our products, nor artificial colorants or fragrances, parabens, or GMOs. We never outsource production: every step happens in our lab at the Borgo to ensure absolute quality and traceability, while also providing important support to the local community. The custom made ceramic packaging is hand-filled at the Relais & Châteaux Il Bottaccio and can be recycled or reused to minimize environmental impact.

RELAIS &
CHATEAUX

The Matcha Soap Soothing Liquid Hand and Body Soap

Breathe in the green notes of Tuscan cypress trees and sun-ripened Mandarins from Sicily for a luxuriously silky liquid body soap. A base of wheat germ oil, organic sunflower and coconut oils blended with matcha tea extract create a soothing shower experience that leaves the skin clean, moisturized and refreshed.

The Devotion Linden Flower Nourishing Body Balm

This version of The Devotion, our restorative body lotion, is a super active vegan formula with a vibrant boost of linden flower. With a high mineral and enzyme content, it contains more of what skin loves. Italian thermal water is used to extract polyphenols from olive leaves, providing powerful antioxidants for your skin and leaving it feeling wonderfully soft, smooth and nourished in every season. Beautifully scented with notes of linden flowers, melissa and lemon peel from Sicily, massage it into your skin and let the aroma whisk you away to a balmy Italian summer's afternoon.

The Revival Shampoo Hydro-Luminous with Horsetail & Moringa

A low-foam shampoo that delicately and thoroughly cleanses while repairing damaged hair and restoring its natural moisture balance. Panthenol, renowned for its deeply moisturizing and thickening qualities, combined with horsetail extract, provides essential building blocks to strengthen the hair follicles, while the wheat protein nourishes and softens hair to enhance silkiness. This formula is a powerhouse of silica essential for shiny, healthy hair. SLS, SLES and sulphate-free.

The Revival Conditioner Hydro-Nourishing with Thermal Plankton

A gentle conditioner that moisturizes and revives tired, dry hair to a healthy shine and bounce. Formulated with essential minerals and thermal plankton, the thermal water improves the absorption of the active ingredients, while moisturizing and nourishing the hair. The olive leaf extract with its powerful antioxidants and the conditioning agent blend together to restore the hair to a healthy shine. SLS, SLES and sulphate-free.
